

ANDY FORD

FRONT END WEB DEVELOPER & DESIGNER

+49 152 59531042
Munich, Germany
andy@fordinteractive.com

PROFILE

I'm a front-end developer & UX designer with over 10 years of experience. I specialize in designing usable, responsive web interfaces and implementing them with HTML, CSS & JavaScript.

I've worked in-house and freelance with agile (and waterfall) teams in web design agencies and tech startups and have contributed to web projects for Fortune 100 companies. I love working with smaller teams that value great UX and have high development standards. I'm especially interested in building web apps/tools for designers, developers, makers, and learners; and anything that empowers people to follow their passions.

React

jQuery

UX Design

Responsive Design

Prototyping

Sketch/Photoshop

Git/GitHub

Agile/Scrum

Node.js/Express

MySQL

Spoken Languages: Native English speaker. Basic German and basic Spanish.

EXPERIENCE

Selected personal & freelance projects

- brilliantpatterns.com (design/dev/Shopify)
- rmanet.com (front-end)

Front-end Engineer | zooplus

Munich, Germany | Nov 2016 - present

I design and build web UIs with HTML, CSS, Sass, styled-components, JavaScript, TypeScript, React, Storybook, Node.js, and Express.

UX Developer | interfacewerk

Munich, Germany | Mar 2016 - Sep 2016

Designed and built web interfaces with Ruby on Rails and Angular 2 - with a focus on user experience and CSS architecture - in close collaboration with a small but talented multidisciplinary team.

Tech Lead / Senior Front-end Developer | Westwing Home & Living

Munich, Germany | Mar 2015 - Mar 2016

I led an international team of front and back end web developers developing new features for the Westwing consumer shopping experience in 9 languages across 14 countries.

UX Developer | Closed Loop

Roseville, CA, USA | Feb 2013 - Feb 2015

Wrote usability interview questions/flow. Analyzed and prepared data visualizations of our user research, usability tests and heuristic reviews. Clients include Allstate, FXPAL, PayPal, and StubHub.

Full-stack development of REST, SPA and MVC web apps and web-based UX prototypes. Testing and research platforms include: live user interviews/tests, UserTesting, Usabilla, SurveyMonkey, Optimizely.

Selected Projects:

- fxpal.com - Custom responsive WordPress theme. (HTML, CSS/Sass, JS, Bootstrap, PHP)
- [Closedloop.com](http://closedloop.com) - Custom responsive WordPress theme. (HTML, CSS/Sass, JS, PHP)

Front-End Developer, UX Designer | AdGlue

Sacramento, CA, USA | Jun 2012 - Dec 2012

AdGlue.com is a startup ad platform and a 2012 SXSW Accelerator finalist. As the sole designer and front-end developer, I designed all UI and visual assets including the product styleguide, workflows and wireframes using pen/paper, whiteboards, Fireworks and Photoshop. Responsive front-end implementation in HTML5, CSS3 (Sass/Compass), JavaScript, jQuery, AJAX, and Grails GSPs.

Front-End Developer, UX Designer | The Sacramento Press

Sacramento, CA, USA | Oct 2010 - Apr 2012

The Sacramento Press is an online-only hyper-local newspaper. It has since been sold to new owners, but during my tenure, the tech team was a small, agile team building mainly on JVM technologies (Java, Groovy, Grails). Responsibilities included defining workflows, designing wireframes and mockups, and front-end development using JSP, HTML5, CSS3, JavaScript, jQuery, YUI, AJAX, Git.

- Designed and implemented responsive retrofit of sacramentopress.com.
- Wireframing, design, and UI implementation of new features.

Front-End Developer | Blue River Interactive Group

Sacramento, CA, USA | Oct 2007 - Oct 2010

I specialized in HTML/CSS/jQuery template production and integration into Blue River's open source content management system Mura CMS for projects ranging from small sites to large web apps. Clients include Apple, Intel, VMware, Amtrak California and Heath Ceramics.

- Overhauled the Mura CMS CSS library.
- Implemented the first proof-of-concept for modular themes in Mura CMS.
- Wrote coding standards documentation for freelance developers I managed.
- Taught Mura CMS training classes. Writing, copy editing, & technical editing of training docs.

Web Developer, Graphic Designer | Anchor Commercial Services

Folsom, CA, USA | Sep 2006 - Oct 2007

- Developed and designed file sharing webapp (PHP, MySQL, HTML, CSS, JS).
 - Visual design of screens for Loan Management System desktop software product.
 - Designed print advertisements and PDF forms.
